

Tarassenko Elena

C# Developer

I have over 8 years of experience in commercial software development, taking part in different projects on different stages of life cycle from initial design up to production release and finished product service. I have experience working in small teams as a fullstack developer and in large teams with strict separation of roles. I also mentored some trainers. I mainly use C# in a .NET Framework environment, SQL, Mongo DB, Redis, Kafka and RabbitMQ, but I am always ready to extend my technology stack!

Experience

2020.08 – .NET Developer

Current **BCS bank**

Work in a team that receives and processes corporate actions data about stock market instruments:

- Obtain corporate actions data from various data sources: NSD, Markit, etc.
- Green field microservices development. Set of microservices allows: to request, aggregate and update in time data about corporate events; to provide API for desktop and mobile brokerage application frontends; to notify clients about actual events of their portfolio and securities regulatory.

2019.03 – .NET Developer

2020.04 **LC Group**

Work in a team that developed international online platform for getting loans in Poland and Mexico:

- Design and development microservices which are responsible for marketing analytics calculations, loyalty programs and payments.
- Integration with Mexican payment systems: STP, Conekta, OpenPay.
- Release the platform in Mexico.
- Mentoring newbies and interns.
- Close interactions with business, communications with foreign partners.

2014.06 – .NET Developer

2019.03 **CrossInform**

1) Work as part of a team that developed a trucking service:

- Development of the ASP.NET MVC backend service, at the beginning as a developer, then as a lead of the project;
 - Participation in negotiations and meetings with a customer, creation of requirements and tasks for development and QA;
 - Unit and integration testing;
 - Design and development business monitoring and test automation tools;
 - Development of end-user Android application on the Xamarin platform.
- 2) Creation and implementation of a Chromium widget in a WinForms project.
- 3) Development of a text correction module for a NLP processor

Education

2011-2017 Bauman Moscow State Technical University, Moscow, Russia
Informatics and control systems, Software engineering (Master)

Certificates

2014 **Microsoft**

MCP: Microsoft Certified Professional

MS: Programming in C#
